Danish -Intermediate (still learning)

MENTIONABLES

Certificate in IT Mobile Apps with React Native

Business Academy Aarhus,
2024, Belgium

FUN FACT

I enjoy expressing my visual creativity by experimenting with different media. I regularly hold creative workshops with friends.

WHO AM I?

With a user-centred and curious mindset, I have a broad understanding of the full lifecycle of digital products, from research and design to testing. Thanks to my hands-on background, I learn quickly, adapt confidently to new challenges, and enjoy experimenting with new solutions, including combining AI tools with traditional design methods. I enjoy turning early ideas into intuitive and visually consistent experiences through close collaboration with stakeholders.

WHAT I BRING

USER INSIGHTS

Structured in my approach, I explore problems through a mix of research and testing methods. Lead workshops and interviews actively, allowing me to understand user journeys deeply and uncover what truly drives their needs and goals.

CROSS-FUNCTIONALITY

I have a strength in cross-disciplinary work moving between user research, ideation, and actual visual and prototype design to shape meaningful solutions as a whole. I make a balance of creative thinking and structured, logical design. Agile environments suit me the best.

TEAM ALIGNMENT

I am a dynamic and reflective team player who communicates transparently to avoid information gaps. I am in my element during team sparring and idea generation while applying critical thinking to strengthen decisions and outcomes. I inspire others and I like when my ideas are being challenged.

WORK EXPERIENCE

Project Consultant (Fixed term) - Kamstrup A/S

2026

- Identifying key drivers of credit note losses, translating insights into system and business procedure improvements that reduce return rates and operational costs

[Recommendation](#)

Digital Campaign Intern - Playable Ap/S

2024

- Developed multi-device B2B marketing campaigns through collaborative client workshops with small to large enterprises
- Designed and prototyped campaign landing pages in Figma, aligning visual identity with user flow and conversion goals
- Produced visual brand assets across digital platforms using Figma, Photoshop, and Illustrator, ensuring consistency

UX/UI and Content Intern - Tropica Aquarium Plants A/S

2023

- Analyzed user behavior and conducted user interviews to identify UX improvements and optimize digital touchpoints
- Redesigned a complex e-commerce platform, improving navigation, filtering, and visuals to reduce user flow friction within 3 months
- Creating a new Social Media Post format which has gained over 1000 likes in the community compared to the regular 400-600
